KIPPER/ROESSLESPRUNG Study

Reference: FULF-3435

1. Attached is an elaborate study which KIPPER made in an attempt to unravel the complex activities of Josef (URBAN), the key figure in operation ROESSLESPRUNG.
2. As you will see the ramifications embrace a fair segment of the Austrian intelligence picture.
3. We have sent approximately 12 shipments of reports and original material from ROESSLESPRUNG to Washington to date in the hope that they could spot its reception through other channels --probably British, or French or Austrian.
4. Another copy of this study is going to Washington under a separate memo.
5. Although the Subject of reference cable does not appear in the study, it is only because his exact role is not clear. He will be described as accurately as possible in additions to the study which will appear from time to time.
